

Jiss Johnson

Summary of Experience

I have been working with web development since 2018, the period during which I have worked in different environments. I'm self-motivated and self-taught professional who likes to solve problems. I merge a passion for usability and user experience with technical knowledge to create cool digital experience. My repertoire includes Programming languages and tools such as JavaScript & Firebase. Build web applications using Vue.js, HTML, CSS, and template languages.

- Build Web applications using JavaScript, Vue.js, Nuxt, HTML, CSS, Firebase.
- Experience in Object Oriented Programming (OOP) concepts using JavaScript.
- Good knowledge in maintaining version control systems such as GitHub, Bitbucket.
- Working with Windows and Linux platforms.
- Language translation using i18n plugin in web front-end.
- Modular development approach throughout the application.
- Highly maintainable and scalable source code development.
